Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired.

If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

☐

means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

Right to cool-off (section 5)

1 - Right to cool-off and restrictions on that right

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS -

- (a) you purchased by auction; or
- (b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or
- (c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or
- (d) you are a body corporate and the land is not residential land; or

- (g) the contract also provides for the sale of a business that is not a small business.

2 - Time for service

The cooling-off notice must be served -

- (a) if this form is served on you before the making of the contract - before the end of the second clear business day after the day on which the contract was made; or
- (b) if this form is served on you after the making of the contract - before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

3 - Form of cooling-off notice

The cooling-off notice must be in writing and must be signed by you.

4 - Methods of service

The cooling-off notice must be -

☐ an address nominated by the agent to you for the purpose of service of the notice

Note - Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that -

- (a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing;
- (b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

5 - Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than -

- (a) the amount of any deposit paid if the deposit did not exceed \$100; or
- (b) an amount paid for an option to purchase the land.

Proceeding with the purchase

If you wish to proceed with the purchase -

- (a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage; and
- (b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract; and

Buyers information notice

Prescribed notice to be given to purchaser

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services recommends that you check the website: www.cbs.sa.gov.au.

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings **Safety**, **Enjoyment** and **Value**, but all of the issues are relevant to each heading.

Safety

- Is there **asbestos** in any of the buildings or elsewhere on the property e.g. sheds and fences?

- Does the property have any **termite** or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorines (now banned) or other **toxic** termiticides?
- Has fill been used on the site? Is the soil contaminated by **chemical residues** or waste?
- Does the property use **cooling towers** or manufactured warm water systems? If so, what are the maintenance requirements?

Enjoyment

- Does the property have any **stormwater** problems?
- Is the property in a **flood prone** area? Is the property prone to coastal flooding?
- Does the property have an on-site **wastewater treatment facility** such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a **sewer mains connection** available?

- Are there any **significant** trees on the property?
- Is this property a unit on **strata or community title**? What could this mean for you? Is this property on strata or community title? Do you understand the restrictions of use and the financial obligations of ownership? Will you have to pay a previous owner's debt or the cost of planned improvements?
- Is the property close to a hotel, restaurant or other venue with entertainment consent for live music? Is the property close to any industrial or commercial activity, a busy road or airport etc that may result in the generation of **noise** or the **emission of materials or odours** into the air?
- What appliances, equipment and fittings are included in the sale of the property?
- Is there sufficient car parking space available to the property?

Value

- Are there any **illegal or unapproved additions**, extensions or alterations to the buildings on the property?

DEVELOPMENT APPROVAL NOTES

The owner is responsible to ensure that the approved building works are constructed within the property boundary.

Building materials are not to be placed on the road or footpath areas.

You are advised to contact appropriate servicing authorities (e.g. electricity and gas service providers etc) regarding their requirements before construction is commenced.

The Office of the Technical Regulator should be notified by you of all building work activities to occur near overhead electricity service and street mains. Further, building work near overhead electricity conductors sometimes creates dangerous situations while underground cables are often covered in such a way that maintenance becomes impossible. Failure to observe safe clearances to existing services in building operations may make you liable to pay damages.

You may have a right of appeal to the Environment, Resources and Development (ERD) Court against the decision if it is either a refusal or an authorisation with conditions. Such an appeal may be lodged within two months of the day on which you receive notice of the decision or such longer period as the Court may allow. The administrative process is conducted by the ERD Court. Please contact the ERD Court if you wish to appeal. The Court is situated in the Sir Samuel Way Building, Victoria Square, Adelaide, Telephone 8204 0300.

Authorisations for Category 3 development applications that were the subject of third party representations must not be acted upon until after fifteen business days from the date of the decision has lapsed. It is recommended that you contact the ERD Court fifteen days after the date of the decision to determine if an appeal has been lodged. If there is an appeal by a third party, any consent shall not operate until determination or withdrawal of the appeal.

Other than where an extension of time has been granted, an approval or consent will lapse after 12 months from the date of the approval/consent or determination or withdrawal date of an appeal. Where substantial work occurs within this time, the approval or consent will remain valid for a 3 year period. Please note that substantial commencement has generally been considered by the Court to consist of the pouring of the footings and slab.

In the application involves a land division, the approval will lapse 3 years after the date of the approval/consent or determination or withdrawal date of an appeal where certificate (accompanied by the appropriate fee) under Section 51 of the Act has been lodged within 12 months from the operative date of the consent.

If the development has not been substantially completed, any consent granted shall lapse after 3 years from the operative date of the decision or appeal.

DEVELOPMENT APPROVAL NOTES

The owner is responsible to ensure that:-

- the description of the land in the site plan is in accordance with the Certificate of Title for the property
- building works are correctly depicted on the site plan submitted
- approved building works are constructed within the property boundary.

An approved crossing place (entranceway) must be provided prior to commencement of construction. Crossing place construction application details are attached to this Development Approval.

It is the owners responsibility to ensure that the proposed building work is not sited over an easement. A copy of the certificate of title, which is available from the Lands Titles Office, will provide this information.

You are advised to contact the appropriate authorities such as S A Water, ETSA, Telstra, Transport SA, Boral Energy, Aust Post and Office of the Technical Regulator regarding their requirements before construction is commenced.

The Office of the Technical Regulator should be notified by you of all proposed additions and alterations to existing building and those proposals to erect signs, awnings, temporary scaffolding or other structures near overhead electricity service and street mains. Building work near overhead electricity conductors sometimes creates dangerous situations while underground cables are often covered in such a way that maintenance becomes impossible. Failure to observe safe clearances to existing services in building operations may make you liable to pay damages to the Trust.

Building materials are not to be placed on the road or footpath areas.

- 1 You may have a right of appeal to the Environment, Resources and Development Court against the decision if it is either:
 - a refusal, or
 - an authorisation with conditions.

Such an appeal may be lodged within two months of the day on which you receive notice of the decision or such longer period as the Court may allow.

Please contact the Environment, Resources & Development Court, not Council, if you wish to appeal. The Court is situated in the Samuel Way Building, Victoria Square, Adelaide, Telephone 82040300.

- 2 If your application was the subject of third party representations, any consent shall not operate until after fifteen business days from the date of the decision.

If there is an appeal by a third party, any consent shall not operate until determination or withdrawal of the appeal.

It is suggested that, fifteen business days after the date of the decision, you contact the Environment, Resources and Development Court to determine if an appeal has been lodged.

- 3 The development must be substantially commenced or for land division, you must apply to the Council and the Planning Commission for certificates of approval, within 12 months of the date of the decision unless the period has been extended by Council, or if the decision has been subject to an appeal, 12 months from the date of the determination or withdrawal of the appeal.

Any consent granted, whether subject to conditions or not shall lapse after 3 years from the operative date of the decision or appeal, if the development has not been substantially completed.

You will require a fresh consent before commencing or continuing the development if you are unable to satisfy these requirements.

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Bidders Guide

Guide to the sale of residential property by auction

Land and Business (Sale and Conveyancing) Act 1994 section 24I and section 24J(1)(f)

Under the Act, the real estate agent responsible for this auction must provide each person registered on the bidders register with this guide.

Who needs to register?

Any person who intends to bid at an auction for residential property must register.

Registering for an auction does not mean you must bid. Registering simply gives you the right to bid. You can register with the agent at any time before the auction, such as when you inspect the property, or on the day of the auction.

If you are bidding to buy the property jointly, for example, with a spouse or partner, only one person needs to register, however, only that person will be able to bid at the auction.

If you are bidding on behalf of another person you will need to provide that person's name and present a copy of a document signed by that person that authorises you to bid on their behalf.

Proof of identity

To register, you must show the agent one of the following*:

- a current document or card issued to you from a Commonwealth, State, Territory or local government authority (e.g. passport, driver's licence, or pension/health concession card, council or water rates notice)
- a document or card issued to you from a utility company (e.g. an electricity supply company)
- a document or card issued to you by a bank (e.g. visa card)
- a passport issued to you by a foreign government.

*you do not need to leave the document with the agent or allow them to make a copy

If you are bidding on behalf of another person, you must also provide a copy of one of the documents listed above that has been issued to that person.

It is against the law to provide false information for entry onto the bidders register.

What happens at registration?

Once you have registered, the agent will provide you with a unique identifier (comprising a number, letter, colour or some other identifying feature). Each time you make a bid you must display this unique identifier.

What if I arrive at the auction late?

Once an auction has commenced, the agent may interrupt the auction to allow you to register. It is up to the agent to determine whether or not to stop the auction to allow you to register. If you are entered on the register you may bid at the auction.

Prescribed standard conditions for auction of residential property

Apart from any conditions of auction that the agent also displays at the auction, the following prescribed standard conditions will apply to all auctions of residential land:

- (a) any person may bid in the auction in person, or by their proxy or representative, subject to the conditions of auction;
- (b) the vendor's reserve price will be as recorded in the auction record;
- (c) to make a bid a person must be registered in the bidders register, having satisfied the requirements as to proof of identity and, if applicable, authority to bid as a proxy or representative;
- (d) the auctioneer will only accept a bid if the person making the bid displays a unique identifier (comprising a number, letter, colour, or some other identifying feature) allocated to the person by the auctioneer
- (e) the auctioneer will, when accepting a bid, audibly announce the unique identifier so displayed by the bidder;
- (f) the auctioneer may refuse a bid if of the opinion that it is not in the best interests of the vendor, and will not be obliged to give any reason for refusing a bid;
- (g) the auctioneer may make bids on behalf of the vendor but not more than 3 such bids and only for amounts below the reserve price; any such bid will be audibly announced by the auctioneer as a "vendor's bid";
- (h) bidding increments will be accepted at the discretion of the auctioneer;
- (i) the person accepted by the auctioneer as having made the highest bid at or above the reserve price will be the purchaser and that bid will be the purchase price;
- (j) the auctioneer will not accept a bid made after the fall of the auctioneer's hammer;
- (k) unless otherwise agreed in writing by the purchaser and the vendor before the commencement of the auction—
 - (i) a contract for the sale of the property, in the form displayed by the auctioneer at the auction, will be completed and signed by or on behalf of the purchaser and the vendor immediately after the fall of the hammer; and
 - (ii) the purchaser will pay a deposit immediately after the fall of the hammer, as specified in the conditions of auction*;
- (l) the auctioneer will have irrevocable authority, after the fall of the auctioneer's hammer, to complete and sign the contract on behalf of the purchaser or the vendor, or both; completion and signing under that authority will be at the auctioneer's discretion in the event of breach by the purchaser of any of the conditions of auction;
- (m) the cooling-off rights under section 5 of the *Land and Business (Sale and Conveyancing) Act 1994* do not apply to a sale by auction or a sale on the day of auction to a person who has made a bid in the auction (whether in person or by their proxy or representative).

*NOTE: Conditions of auction includes conditions displayed by the auctioneer at the auction as conditions of the auction, together with the standard conditions set out above.

Dummy and vendor bidding

It is against the law for the vendor of the property, or a person acting on behalf of the vendor, to make a bid at the auction. This type of activity is called dummy bidding and can attract a maximum penalty of \$20,000.

However, the vendor of the property is entitled to have up to three bids made on their behalf by the auctioneer, who must announce each such bid as a 'vendor bid'. The amount of a vendor bid must be less than the vendor's reserve price.

Interrupting auctions

It is against the law to knowingly prevent a rival bidder from freely bidding at an auction, or to harass a bidder.

It is also against the law to do anything with the intention of preventing, causing a major disruption to, or causing cancellation of an auction. A maximum penalty of \$20,000 applies.

Cooling-off period

There is no cooling-off period when you buy at auction.

If you are the successful bidder at auction no further bids can be made or accepted. You must then sign a binding sale contract as soon as possible after the conclusion of the auction. You will usually be required to pay a deposit at the time. The deposit amount is usually around 10% of the purchase price, however you may seek to negotiate a lesser amount with the agent before the auction.

If the property is passed in at auction and if you made a bid at the auction then any sale contract you enter into before midnight on the same day as the auction, as a result of further negotiations with the vendor, is not subject to a cooling-off period.

Your privacy

The agent is not permitted to disclose information on the bidders register to anyone unless required to by an authorised person under the *Fair Trading Act 1987*.
